GRAPHIC PROJECTORS

GB70™

70w Pattern and Framing Projector

The GB70 is a newly developed modular image projector making any surface communicate- day or night. It lets you place, move, and rotate projected logos, text, visual or other images on any surface, at any time.

The GB70 is ideal for store fronts, window displays, POP displays, indoor advertising, or entertainment and hospitality venues. Corporations and franchises are discovering the marketing power of this projector, and how it can save time, cut costs, and project a strong image to capture consumer attention.

The GB70 is the foundation of a new mass-market and POP marketing system that broadens creative options, improves efficiency, and lowers overall production costs. It can be used together with existing forms of POP advertising, display and promotional graphics - or replace them.

The GB70 can help centralize or decentralize corporate advertising and promotional campaigns. Create a consistent message at several locations - or tailor art to suit specific needs.

The GB70 is UL, CE and VDE listed and has an IP 20. Made in the USA- IBEW.

Create custom or standard patterns, and beam shaping equal to a 300-500 watt quartz ellipsoidal while

burning a cool 70 watts of electricity.

Each unit is equipped with an onboard lightweight electronic transformer. Typical throws range from 10-20 feet. Ideal for high ceilings, or where you need that extra punch to cut through ambient light.

Gobo size: M size.OD: 66mm, ID: 48mm.

Bezeled (for glass gobos): Outer diameter with a bezel: 66mm, outer diameter: 50.25mm, Image diameter: 46mm

FEATURES

Cool Operation, no fan needed
Zoom Focus 18° - 40°
Locking Yoke
Stainless Steel Framing Shutters
Built- in Pattern Slot
